Dear Mr. Eccli:

Re: MRP Amendment, BLM Approved Underground Mine Plan Modification, Hiawatha Mine Complex King VI Mine, ACT/007/011, Folder #3, Carbon County, Utah

The Division Has reviewed a copy (received October 7, 1986) of U.S. Fuel Company's request for a minor mine plan modification to access the remaining Hiawatha Seam reserves. We find that these underground changes should not cause any additional adverse impacts, and have no further comments or concerns.

Please provide the Division with two (2) additional copies of an updated mining sequence map outlining the dates that mining will be conducted. These maps will be used to keep our copies of your MRP application current.

Thank you for your cooperation in this permitting matter. If you have any questions or concerns, please contact me or Dave Darby.

Sincerely,

D. Wayne Hedberg  
Permit Supervisor/
