RE: Mohrland Pipeline Upgrade, U.S. Fuel Company, Hiawatha Complex,
ACT/007/011-88B, Folder #2, Carbon County, Utah

Dear Lowell:

The pipeline lies on private surface within the Manti-LaSal National Forest boundary along Forest Development Road #50111, therefore, we have an interest in this road but no authority. The existing pipeline has been leaking for several years, resulting in damage to the road surface and inside drainage ditch. We feel that rerouting of the proposed segment and phased repair of the remaining pipeline segment is needed to protect the road and suggest that the bypassed pipeline be removed. The road surface and drainage structures should then be restored. }✓

✓ This road is a county road administered by Emery County. The Division should notify Emery County of the proposal and ask for their comments.

Sincerely,

for
GEORGE A. MORRIS
Forest Supervisor
