RE: Recommended Approval of U.S. Fuel Company's Request to Modify Coarse Refuse Expansion Plans, Hiawatha Complex, ACT/007/011, Folder #2, Carbon County, Utah.

U.S. Fuel Company's February 2, 1988 response to the Division's January 22, 1988 letter has been reviewed. This response adequately addresses my concerns from previous submittals regarding reclamation and topsoil stabilization. Therefore, final approval of this revision is recommended.
