Ms. Jean Semborski
U. S. Fuel Company
Hiawatha, Utah 84527

Dear Ms. ^{Jean}Semborski:

Re: Certification Requirements for Sediment Ponds, Class I Haul Roads, Coal Waste Ponds and Impoundments, U.S. Fuel Company, Hiawatha Complex, ACT/007/011, Folder #2, Carbon County, Utah

Division certification of the above types of structures is being scrutinized by federal inspections, and the enclosed policy is designed to provide consistent certification reporting statewide. I have asked Lynn Kunzler, Reclamation Biologist, to review your present certification reporting for these structures with you, and to discuss completion of the requisite reports, where necessary.

If remedial action is required to bring your certification reporting into compliance with the regulations, you should take the requisite steps prior to the next state inspection. Thank you for your cooperation.

Sincerely,

Lowell P. Braxton
Administrator
Mineral Resource Development
and Reclamation Program
