October 4, 1989

TO: Susan Linner, Permit Supervisor  
FROM: Lynn Kunzler, Reclamation Biologist *L. K.*  
RE: Review of IBC & New Coal Handling Facilities, Genwal Coal Company, Wellington Preparation Plant, ACT/007/012-89A, Folder #3 Carbon County, Utah

Summary:

The referenced plan received on September 25, 1989 has been reviewed and was found to adequately address biological and land use concerns.

Analysis:

UMC 786.19(b) Reclamation Feasibility - LK

The operator has provided a commitment, including time frames to redesign the revegetation test plot and implement the approved plan by October of 1990.

UMC 784.13 Reclamation Plan: General Requirements - LK

The operator has provided appropriate reference to the approved ORP for reclamation of all disturbed areas, including the new access road. A provision has been made to modify the plan at a future date to leave the road for postmining land use. Details for this approval will be submitted at that time.

Recommendations:

The IBC and new coal handling facilities plan is approvable from a biological and land use basis.
