Dear Daron:

I am requesting an extension of time in which to submit revised Chapter VII (Hydrology) of our Mid Permit Term Review. This chapter was proposed to be completed by June 30. The previous five chapters have been submitted on a timely basis. Only this and Chapter VIII (Bonding) remain to be revised.

This extension is needed for several reasons: Recent layoffs, reorganizations and changes in office locations at our facilities have taken time that was needed for this project. Plan submittals required to address several recent violations have also taken up considerable time. This is a rather lengthy chapter with numerous tables and maps which need to be updated.

At least another month and possibly six weeks will be needed to adequately address this chapter.

Sincerely,

Robert Eccli
Sr. Mining Engr.
