Re: Permit Renewal Deficiencies, U. S. Fuel Company, Hiawatha
Mines Complex, ACT/007/011

Dear Daron:

This is to request an extension of time in which to address our permit renewal deficiencies. We wish to utilize the same consultants who assisted us with our original application since they are familiar with our operations and have retained their earlier field records. These consultants, however, have been tied up with prior commitments and have had difficulty freeing personnel for our project. Also, several of the vegetation deficiencies require field work which cannot be done until the peak growing season (late July and early August). Therefore, I am requesting an extension of time until August 31 to complete this project.

Sincerely,

Robert Eccli

Robert Eccli
Sr. Mining Engineer
