Re: Initial Review Response - Accepted, U. S. Fuel Company, Hiawatha Mines,  
ACT/007//011, Folder #2, Carbon County, Utah

Dear Mr. Baum:

The Division received the proposed amendment to use an alternate topsoil borrow site on September 10, 1993, and has determined the application administratively complete for review purposes. This amendment has been assigned the permit change number 93B.

We will now commence a technical review of the amendment to determine if it meets all the requirements of the R645 Coal Regulations. We anticipate completion of this review circa October 10, 1993, at which time you will be notified of amendment status.

If you have any questions or concerns, please feel free to call.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock  
Permit Supervisor
