Dear Mr. Watson:

Wanted again to thank you for taking the time from your busy schedule to review your official files and records. You pulled the file and highlighted action taken on the matter of AML fees on your slurry cell.

The information provided at your office and more particularly the letter you prepared on the ALM fees associated with mining slurry cells was most helpful. Hopefully, it will pave the way for equitable treatment of all companies who are mining refuse piles.

Should you ever need public information from the Price Field Office, we shall do our best to assist you.

Sincerely,

A handwritten signature in cursive script that reads "Wm. J. Malencik".
