Re: Chapter V Exhibits, Mass Balances
Permit Number ACT/007/011

Enclosed are seven copies each of six Chapter V exhibits and one Chapter V appendix in response to Division Order 97A. One exhibit depicts the final hydrology while the rest of the information pertains to final contours and mass balances. This submittal is the last installment of U. S. Fuel's initial response to Division Order 97A. In light of the fact that so much information has already been submitted (most of the permit has been altered) and additional amendments will undoubtedly be required after the Division's review, it seems reasonable to await your response prior to additional submittals at this time.

Also, I neglected to submit the enclosed request for extension of time to comply with Division Order 97A at the time of my last submittal. Hopefully, it is not too late.

Sincerely,

Michael P. Watson
President
