The Hiawatha electronic water monitoring data has been uploaded onto the web site. I discovered after uploading the data that there were some of the samples that were entered as sample type 20, but should have been a sample type 10. Ken is fixing this for us. The attached file is for Ken to review due to an uploading problem we have been encountering.

Elliot will send a hard copy of the lab and field sheets to you in the mail. If you have any questions, let me or Elliot know.
