Re: Annual Report, Hiawatha Complex, C/007/011.

While running the calculations for the subsidence survey a question arose about the accuracy of the control points. In order to maintain the quality of the survey Hiawatha Coal Company has been resurveying and verifying the location of the control points. Because of this there has been a delay in the completion of the subsidence survey.

Hiawatha Coal Company would like to request an extension of the submittal date for the 2002 annual report until April 18, 2003 so that we can include an accurate subsidence survey.

If you have any questions, please call me at (435) 687-5238.

Thank You,

Mark Reynolds,
Environmental Coordinator
