1. Permits, Change, Transfer, Renewal, Sale

The DOGM permit was issued on March 14, 2002 and expires on March 14, 2007. The permit renewal included two conditions. These conditions were: electronic submittals of water monitoring data and complying with the results of any Order resulting from the Informal Hearing (requested by Huntington Cleveland Irrigation Company) held on April 11, 2002. Received clean copies of the amendment #AM02B-3 on 7/15/2003 satisfying the order. It was conveyed to Mr. Gustafsen that the Annual report had not been located at the Division office in Salt Lake.

2. Signs and Markers

Signs containing the required information were posted at access points to the property. Disturbed area markers were also in place.

4.b Hydrologic Balance: Sediment Ponds and Impoundments

The sediment pond below the #5 reclaimed slurry pond was dry and appeared to be in stable condition.

15. Cessation of Operations

The mine is currently inactive. However, the company plans to enter the mine portals soon to evaluate the mining potential.
