RE: Hiawatha Coal Company "Hiawatha Mine" - Application for a Permit Revision, Water Monitoring Parameters, Task ID No. 2638

Dear Sir or Madam:

This in response to the Utah Division of Oil, Gas & Mining's (UT-DOGM) September 18, 2006, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Water Monitoring Parameters, has determined that it proposes to revise the water quality monitoring parameters and sampling procedures at the Hiawatha Mine, Utah State permit C/007/011.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Water Monitoring Parameters, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the September 18, request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

In an electronic submittal dated September 19, 2006, the U.S. Forest service stated it had no comments or concerns with the permit revision.

The Bureau of Land Management did not provide any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh  
Manager, Northwest Branch

RE: Andalex Resources, Inc. "Centennial Mine" - Application for a Permit Revision, Fan Canyon Break-out, Task ID No. 2640

Dear Sir or Madam:

This in response to the Utah Division of Oil, Gas & Mining's (UT-DOGM) September 18, 2006, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Fan Canyon Break-out, has determined that it proposes to add the as-built for the Left Fork Fan Area to the approved permit application for the Centennial Mine, Utah State permit C/007/019.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR 746.18(d). Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGM from coordinating the review and approval of the Application for a Permit Revision, Fan Canyon Break-out, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the September 18, request to the Bureau of Land Management and the U.S. Forest Service for their review and comment.

In an electronic submittal dated September 19, 2006, the U.S. Forest service stated it had no comments or concerns with the permit revision.

The Bureau of Land Management did not provide any comments in the thirty day time frame established by the Federal regulations under 30 CFR 944.30, Article VI. D.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 844-1400, extension 1500.

Sincerely,

Ranvir Singh
