RE: Hiawatha Coal Company "Hiawatha Complex" Mine - Application for a Permit Revision, Slurry Pond Abandonment, Task ID No. 3343

Dear Sir or Madam:

This is in response to the Utah Division of Oil, Gas & Mining's (UT-DOGGM) July 2, 2009, request for a decision, under 30 CFR 944.30, whether the above subject permit revision constitutes a mining plan modification.

Mining plan approvals by the Secretary of the Interior are required under the Mineral Leasing Act of 1920, 30 U.S.C. 181, *et seq.* before coal mining can occur on Federal lands. This letter serves to document OSM's determination whether or not a mining plan approval from the Secretary is required for the above permitting action.

OSM's review of the Application for a Permit Revision, Slurry Pond Abandonment, has determined that it proposes to abandon two slurry impoundments at the Hiawatha Complex mine, Utah State permit C/007/0011.

Based on a review of the activities associated with the permit revision, OSM has determined that the proposal does not meet the requirements of 30 CFR PART 740 and PART 746. Therefore, the proposed permit revision does not constitute a mining plan action requiring Secretarial approval.

OSM's decision was based solely upon the Federal regulations under 30 CFR PART 746 and not the technical aspects of the revision application itself. Consequently, OSM's decision does not relieve UT-DOGGM from coordinating the review and approval of the Application for a Permit Revision, Slurry Pond Abandonment, with other Federal agencies for compliance with other Federal regulations.

OSM also electronically transmitted the July 2, 2009, request to the Bureau of Land Management and the USDA Forest Service for their review and comment.

TAKE PRIDE
IN AMERICA 

RECEIVED
JUL 13 2009
DIV. OF OIL, GAS & MINING

In an electronic submittal dated July 2, 2009, the USDA Forest Service stated in its opinion the proposed permit revision did not constitute a mining plan modification requiring Secretarial approval.

In an electronic submittal dated July 8, 2009, the Bureau of Land Management stated in its opinion the proposed permit revision did not constitute a mining plan modification requiring Secretarial approval.

Please notify the applicant of our decision on this matter.

Should you have any questions regarding this letter or approval, please contact Carl R. Johnston, Utah Federal Lands coordinator, at (303) 293-5038.

Sincerely,

Michele A. Christmann
