**Subject:** Hiawatha 0070011 Outgoing midterm response Task 3459

Hello Mark,

As we discussed on the phone today, the Division returned/denied Task 3084 which was referenced as the location of ownership and control information in your recent mid-term review response.

I looked through the files and found that the ownership and control information that you recall providing to the Division was submitted with the Bear Canyon Mine application for permit transfer (review Task 3215) and was formatted to update the Bear Canyon Mine plan.

The changes in ownership for Hiawatha Coal Company must still be updated in the Hiawatha MRP. Please review the deficiencies written for the mid-term review and make the applicable changes to the Hiawatha MRP ownership and control information.

Thank you,  
Priscilla.
