Attachments: April Abate.vcf

Hello Charles,

I am currently preparing the 4th quarter 2009 monitoring report and noticed that there were several sample sites and water quality parameters that we did not have data for in the database. They are as follows:

UPDES:
UT0023094-003 through UT0023094-013

Springs:

SP-2, SP-4, and SP-12

I wasn't sure if you the person that is in charge of uploading the Hiawatha water data into our database? Could you or someone look into this and get back to me? Our database has had some glitches lately so it may be a problem on our end.

Thanks for your help,
April
