All of the information for the 3rd and 4th quarter have been entered in the pipeline and are ready for uploading, and has been since the 17th. The delay in the 3rd Quarter data was due to the time necessary to train new personnel on how to enter and upload. Dana Jenkins, our new environmental coordinator, is now trained and will be making sure the data is submitted each quarter. I do not feel that the violation is necessary at this point and Hiawatha would appreciate the Division working with us as Mr. Jenkins is brought up to speed on everything required.

Charles,

The 3rd quarter samples for July - September 2011 were due to the Division by December 31, 2011. The rules require that water monitoring data be submitted at least every three months. Hiawatha is in violation for failure to submit the required data in accordance with R645-301.731.212 and R645-301.731.223. Unfortunately, I will be issuing another notice of violation for this period of time.

We are still entering data from 3rd and 4th quarter. I'll let you know when it is all in there.

Charles,

I have a group of samples from the 3rd Quarter 2011 that need QA/QC from you before I can okay them for uploading. I attached a screen shot of what is in the pipeline. Can you let me know when this is done so I can go ahead and upload the samples?

Thank you...

April

By the way, our assessment officer did reduce the fine for those 3 sample locations (I think it translated to approximately \$300 less) for NOV #10094.
