Charles,

I apologize that I missed your call and didn't realize i had a message until this morning. It should be perfectly fine to push the midterm back again since waiting on vendor information which is out of your hands.

Thank you also for taking the effort to establish a local cost estimate on the concrete demo that actually reflects site conditions. I realize it takes a lot of extra effort and RS Means is a nice starting point but actual invoices are always better.

Thanks, Happy St Patrick's day

Cheryl Parker, M.S., P.E.
