Subject: Application Information Received for UPDES Renewal Permit No. **UT0023094**
Hiawatha Coal Mine Facility

Dear Mr. Reynolds:

We have received the permit renewal request application information on April 30, 2020 for the above referenced UPDES permit facility. Thank you for the timely application submittal. At this time, the application information appears to be complete and we will soon begin processing the permit for renewal as appropriate. However, should questions arise I will be in contact to resolve any outstanding issues or concerns. In the event that a renewal permit has not been issued prior to the expiration date contained in your existing permit, there will be an automatic continuation of that permit per Section R317-8-3.1 of the Utah Administrative Code. Under the terms of this regulation, all of the requirements, conditions, and limitations of your existing permit will remain in full effect until the renewal permit is issued.

If you have any questions regarding this matter, please contact me at jstudenka@utah.gov or at (801)-536-4395. Thanks for your continued efforts to help protect Utah's Water Quality.

Sincerely,

Jeffrey Studenka (May 6, 2020)

Jeff Studenka, Environmental Scientist
UPDES Surface Water Section
