RE: Sauerman Drag Scraper  
Wellington Prep Plant  
ACT/007/012  
Carbon County, Utah

Dear Mr. Sides:

After the Division's review of the proposed reclamation plan for the Sauerman Drag Scraper, two areas were found to be lacking: 1) The establishment of the reference areas for measuring success of revegetation and 2) submittal of lab data on the SN Soil series.

Both of these areas may be addressed at this time or as part of the permanent permit application.

Final approval of the reclamation plan for the Sauerman Drag Scraper is granted, but upon review of the permanent reclamation plan, final permit approval will be delayed until the two areas in question are fully addressed.

Sincerely,

A handwritten signature in black ink, appearing to read 'Everett Hooper'.

EVERETT HOOPER  
RECLAMATION SOILS SPECIALIST
