Re: Wellington Coal Cleaning Plant
Technical Revision No. 1
Refuse Pond Modifications

Dear Mr. Smith:

In preparing more detailed construction plans for Technical Revision No. 1, it has become apparent that some potential concerns of the Division were not addressed. These are:

1. Roads

If the Clear Water Dam is used as a "return haul" road during construction work on the Lower Dam, there is some possibility that the heavy equipment traffic could damage the structure. Therefore, the Operator proposes to modify an existing road for the "return haul".

2. Excess Excavation Material or Borrow of Fill Material

The attached sheet discusses what steps will be taken to balance cut and fill volumes.

Enclosed are five (5) copies of Page 6 for insertion in the subject Technical Revision. Also enclosed are revised copies of Maps E9-3426 and E9-3425.

Sincerely,

R. E. Yourston
General Superintendent
