RE: Apparent Completeness Review  
Wellington Preparation Plant  
ACT/007/012  
Folder No. 2  
Carbon County, Utah

Dear Mr. Watson:

Please find enclosed the Division of Oil, Gas and Mining's Apparent Completeness Review (ACR) for U. S. Steel Corporation's Wellington Preparation Plant.

Those areas of the permit application that were determined to be deficient in the ACR must be addressed before a Technical Analysis may be initiated.

It is requested that U. S. Steel provide the information required in the ACR on or before July 8, 1983 in order that the Division can maintain its current review schedule for repermitting all existing operations. Failure to respond completely by this date may postpone further review of the application and result in suspension of U. S. Steel's interim permit .

Should you have any questions regarding this document, the above deadline or desire to set up a meeting to discuss the ACR with the review team, please don't hesitate to call me or Lynn Kunzler of my staff.

Sincerely,

JAMES W. SMITH, JR.
