Dear Mr. Sides:

RE: Approval of Abatement Plans to Construct a Containment Basin for Notice of Violation N84-7-10-1, Wellington Coal Cleaning Plant, ACT/007/012, #3, #4 and #7, Carbon County, Utah

N84-2-13-LD

The Notice of Violation (NOV) abatement plans submitted by U. S. Steel Mining Company May 13, 1985 for NOV N84-7-10-1 have been reviewed by the Division. The proposed plans are hereby approved by the Division.

Pursuant to Dianne Nielson's letter of May 6, 1985, the Division now requests U. S. Steel Mining Company to provide an additional ten (10) copies of the final approved design plans and revised text. These copies will be forwarded to the appropriate review agencies by the Division to update the Mining and Reclamation Plans (MRP) on file with their respective offices.

The plans should be formatted in such a manner to allow the revised sections to be inserted directly into the MRP as replacement pages.
