Dear Mr. Summers,

As we have discussed, please find attached 3 copies of the requested changes in Genwal's water monitoring program for the Wellington Coal Load-site. The changes establish quarterly monitoring at all sample sites according to DOGM guidelines for operational facilities, except that no flow will be measured at SW-1 on the Price River. These changes are proposed to supersede the material in Kaiser's old Operation and Reclamation Plan.

Sincerely,

Coal Systems Inc.

Mining Engineer
