Ms. Susan Linner, Permit Supervisor
DIVISION OF OIL, GAS & MINING
3 Triad Center, #350
Salt Lake City, Utah 84180-1203

Dear Ms. Linner,

Transmitted herewith are 3 copies of a report entitled "SOIL MANAGEMENT PLAN FOR THE WELLINGTON SCREENING SITE" prepared by James Leatherwood. This report includes an interpretation of 45 soil samples taken at 9 locations, September 21.

Reference is made in his report to COAL SYSTEMS, Inc. Dwg. No. 4067-6-8. That drawing does not yet include the sample locations, top soil storage pile locations, etc. If all right with you, I propose to come to the Division offices in the next day or so and install this information on those maps already held by the DOGM; then, this information would be properly placed on the "as built" drawings to be prepared at the end of the project.

I would appreciate a timely review of this report so that we are not delayed in the pad construction. Please call should there be any questions.

Sincerely,
COAL SYSTEMS, Inc.
L. G. Manwaring, Jr.
