DIVISION OF
OIL, GAS & MINING

Dear Sue:

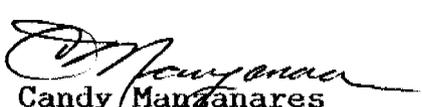

Referencing our phone conversation on August 11, 1989, during which time we discussed the removal and/or possible storage of scrap iron on the refuse pile at Genwal's Wellington Load Site, please be advised that the scrap iron will be removed from the property starting the week of August 14, 1989.

This scrap iron will be removed by a salvage company under my direction in order to have this land area available for future road and construction development.

It is our intent to not remove or disturb any earth material in this location until such time as a permit has been issued by the Division of Oil, Gas & Mining.

Should you have any questions regarding the above or would like to inspect the area during the salvage operation period, please feel free to contact me.

Best regards,

Candy Manzanara
