Dear Mr. Paul:

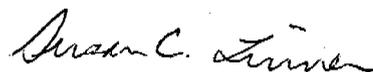

Re: Approval for Construction of UD-1A, Genwal Coal Company,
Wellington Preparation Plant, ACT/007/012-89A, Folder #2, Carbon
County, Utah

The laboratory analysis for soil materials at the location of proposed UD-1A, received October 30, 1989, has been reviewed. The material should not be salvaged for use upon reclamation (see attached memo).

Approval for construction of UD-1A is granted. During the upcoming Mining and Reclamation Plan resubmittal Genwal will be required to identify a suitable amount of substitute topsoil for use in reclamation of this area, for the Division's approval.

If you have any questions, please contact me or Henry Sauer, Reclamation Soils Specialist.

Sincerely,

Susan C. Linner
Reclamation Biologist/
Permit Supervisor
