Re: Genwal Coal Co., Wellington Preparation Plant
Baseline Information Submittal
- ACT/007/012

Dear Mr. Haddock:

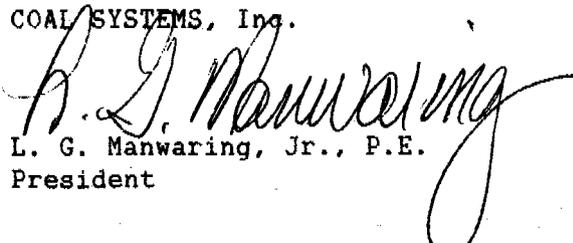

As per Permit Renewal Stipulation UMC 788.14-(1)-SCL, Genwal Coal Company is updating the approved Operation and Reclamation Plan (ORP) for the Wellington Plant. According to the schedule outlined in this stipulation, an ORP outline, reformatted baseline information and baseline hydrology report are to be submitted to the Division by June 1, 1990.

A diligent effort has been and continues to be made to reformat existing information and compile the required new information in order that the Company submit a quality product to the Division for your review. We hereby request an extension of the June 1, 1990 deadline to July 15, 1990, due primarily to the need for additional and unanticipated information required for the hydrology baseline report (including the Probable Hydrologic Consequences).

Please let me know if this request is acceptable to the Division at your earliest possible convenience.

Sincerely,

COAL SYSTEMS, Inc.

L. G. Manwaring, Jr., P.E.
