RE: Ownership of Wellington Coal Cleaning Plant UPDES  
Permit No. UTG040010

Dear Mr. Hilden:

The Wellington coal cleaning plant was purchased by Nevada Electric Investment Company in 1989, and was operated by its subsidiary Castle Valley Resources, Inc. ("CVR") This summer a portion of the property at the Wellington site was sold to the Intermountain Power Association and the site will be operated as a joint venture with NEICO's subsidiary CVR continuing to be the operating agent.

I understand that there are some forms that must be signed by both companies and I am requesting that these be sent to me as soon as possible.

I appreciate your help in this matter.

Sincerely,

Robert W. Mower  
Vice President
