Daron Haddock, Permit Supervisor
State of Utah, Department of Natural Resources
Division of Oil, Gas & Mining
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180

Dear Mr. Haddock:

Castle Valley Resources is seeking approval to build a small oil tank storage building so they can sell oiled stoker coal this season. Enclosed please find two (2) copies of a permit amendment application. This is now insertable to the present ("old") MRP, but not the "new", unreviewed one. If this is accepted, we will then make it insertable to the new plan too.

As Jon Passic stressed in our meeting with you and others at the Division last week, there is an urgency for approval (even if it's informal, at first). They must get started on construction if they want be able to sell to customers this December.

All the help that you and Sharon Falvey have given for this amendment has been much appreciated. Call if you have any questions.

Sincerely,

A handwritten signature in cursive script, appearing to read "Patrick Collins".

Patrick Collins, Ph.D.
Environmental Consultant
