RE: **RESPONSE TO THE DEFICIENCIES (2)**
CASTLE VALLEY RESOURCES/GENWAL COAL COMPANY
ACT/007/012
WELLINGTON FINES REMOVAL

Dear Mr. Haddock:

As was committed in our "Response to the Deficiencies" for the Wellington Preparation Plant dated July 15, 1991, please find Exhibit B. Exhibit B is a map showing the locations of the proposed initial storage and drying area for coal fines following removal. The map also includes maximum tonnage to be stored at these locations.

To our knowledge, all deficiencies specified by the Division have been addressed. Please notify us as soon as possible if these deficiencies have been sufficiently delivered. We would like to initiate the fines removal study immediately.

Sincerely,

Patrick D. Collins, Ph.D.
Environmental Consultant
