Mr. Daron Haddock, Permit Supervisor
State of Utah, Department of Natural Resources
Division of Oil, Gas & Mining
355 West North Temple
3 Triad Center, Suite 350
Salt Lake City, Utah 84180

Dear Daron:

I'm sure that Lowell Braxton has informed you by now of the recent agreement and co-ownership between Castle Valley Resources/Genwal Coal Company and the Intermountain Power Association (IPA). This will also affect the Wellington Preparation Plant. We had a spur-or-the-moment meeting with Lowell yesterday afternoon and hoped you could be there. At any rate, we wanted to inform you both on the recent arrangement before it went public and get your initial response about how it could affect our permitting process at Wellington.

After the meeting with Lowell, we all felt we could probably proceed as we have been with the permitting. Reclamation plans, liabilities, and so on could be left to the operators/companies to work out. In other words, the agreement will probably not significantly disrupt our present permitting process and schedule.

If you have any additional comments, please call me or Jon Passic. We could run up for a meeting at any time.

Sincerely,

Patrick Collins
Environmental Consultant
