Dear Mr. Passic:

Re: Reclamation Plans and Bond Calculation Submittal, Genwal Coal Company, Wellington Prep Plant, ACT/007/012, Folder #2, Carbon County, Utah

The Division has been actively working with Castle Valley Resources Incorporated, toward completing stipulation UMC 788.14-(1)-SCL which requires submittal of information according to a specific schedule.

The Division issued a Notice of Violation (NOV N 90-28-7-1) on October 29, 1990 for failing to meet that schedule, in particular the October 1, 1990 date for submitting the operation plan and maps. Abatement of the NOV has been extended to January 27, 1991.

The next date for submittal of the reclamation designs and bond calculations was January 1, 1991. The Division recognizes that the reclamation plans cannot be done prior to completing the abatement of the NOV, therefore the January 1, 1991 deadline is extended to March 1, 1991.

If you have questions or problems concerning this revised schedule please call.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".
