May 28, 1992

Mr. Jay Marshall, Chief Engineer
Castle Valley Resources Inc.,
P. O. Box 1201
Huntington Utah 84528

Dear Mr. Marshall:

Re: Denial of Amendment 92C, Castle Valley Resources Inc., Wellington Prep Plant,
ACT/007/012-92C, Folder #3, Carbon County, Utah

The Division has completed review of Castle Valley Resources amendment submitted on April 6, 1992 dealing with drainage design at the Wellington prep plant. The amendment was found to be inadequate for approval and is hereby denied. The Division is currently conducting a mid-term review of your plan and any deficiencies in your plan with regard to drainage requirements will need to be resolved in conjunction with that review.

On April 20, 1992, you were given approval to repair erosion at the refuse site and do some construction on the refuse pile area. This work was required as part of the abatement for NOV N92-38-1-1 and should have been completed by May 20, 1992. The Division is expecting to receive an as-built report of the construction at the refuse pile. This should be submitted by June 20, 1992.

If you have any questions, please contact me or Sharon Falvey.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor
