RE: WELLINGTON COAL PREPARATION PLANT  
RECLAMATION COSTS UPDATE

Dear Mr. Haddock:

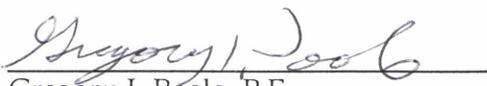

Enclosed please find the requested revised reclamation cost estimate. At the request of Mr. Wayne Western and Mr. Randy Hardin the following revisions have been made to the Appendix J. Cost of Reclamation:

1. Costs for foreman and water truck have been removed from individual items and placed in a separate item (Task 2.15). The revised required man hours for the foreman were computed based on reclamation schedule and assuming that a forman is needed throughout the operation as requested by DOGM.
2. The hourly rate for the Cat 657E P-P Scraper has been corrected.
3. Revegetation unit costs have been itemized as we discussed yesterday.
4. Mobilization and demobilization costs of 2.5% have been added as agreed to yesterday.

Please call if there are questions.

Sincerely,

HANSEN, ALLEN & LUCE, INC.

  
Gregory J. Poole, P.E.  
Project Engineer
