Re: Approval of Stoker Coal and Scale Amendment, Castle Valley Resources, Wellington Prep Plant, ACT/007/012-93F, Folder #3, Carbon County, Utah

Dear Mr. Marshall:

The Division has completed a review of your permit change application to incorporate a platform scale and ability to oil stoker coal at the Wellington Loadout. Your plans are considered complete and accurate and are hereby approved with the following stipulation:

- 1) CVR must incorporate into the plan a detailed map which shows the location of the oil storage building, the pipes used to transport the oil to the sprayers and the platform scale. The map must have a scale no smaller than 1 inch equals 100 feet.

Copies of your amendment will need to be submitted for distribution. Please submit ten (10) copies of your complete amended plans by no later than January 28, 1994.

If you have any questions, please call me or Wayne Western.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor
