RE: 7 Copies: Wellington Mid-Term Deficiencies Submittals (ACT/007/012)

#2
 Copy PAM

Dear Ms. Grubaugh-Littig:

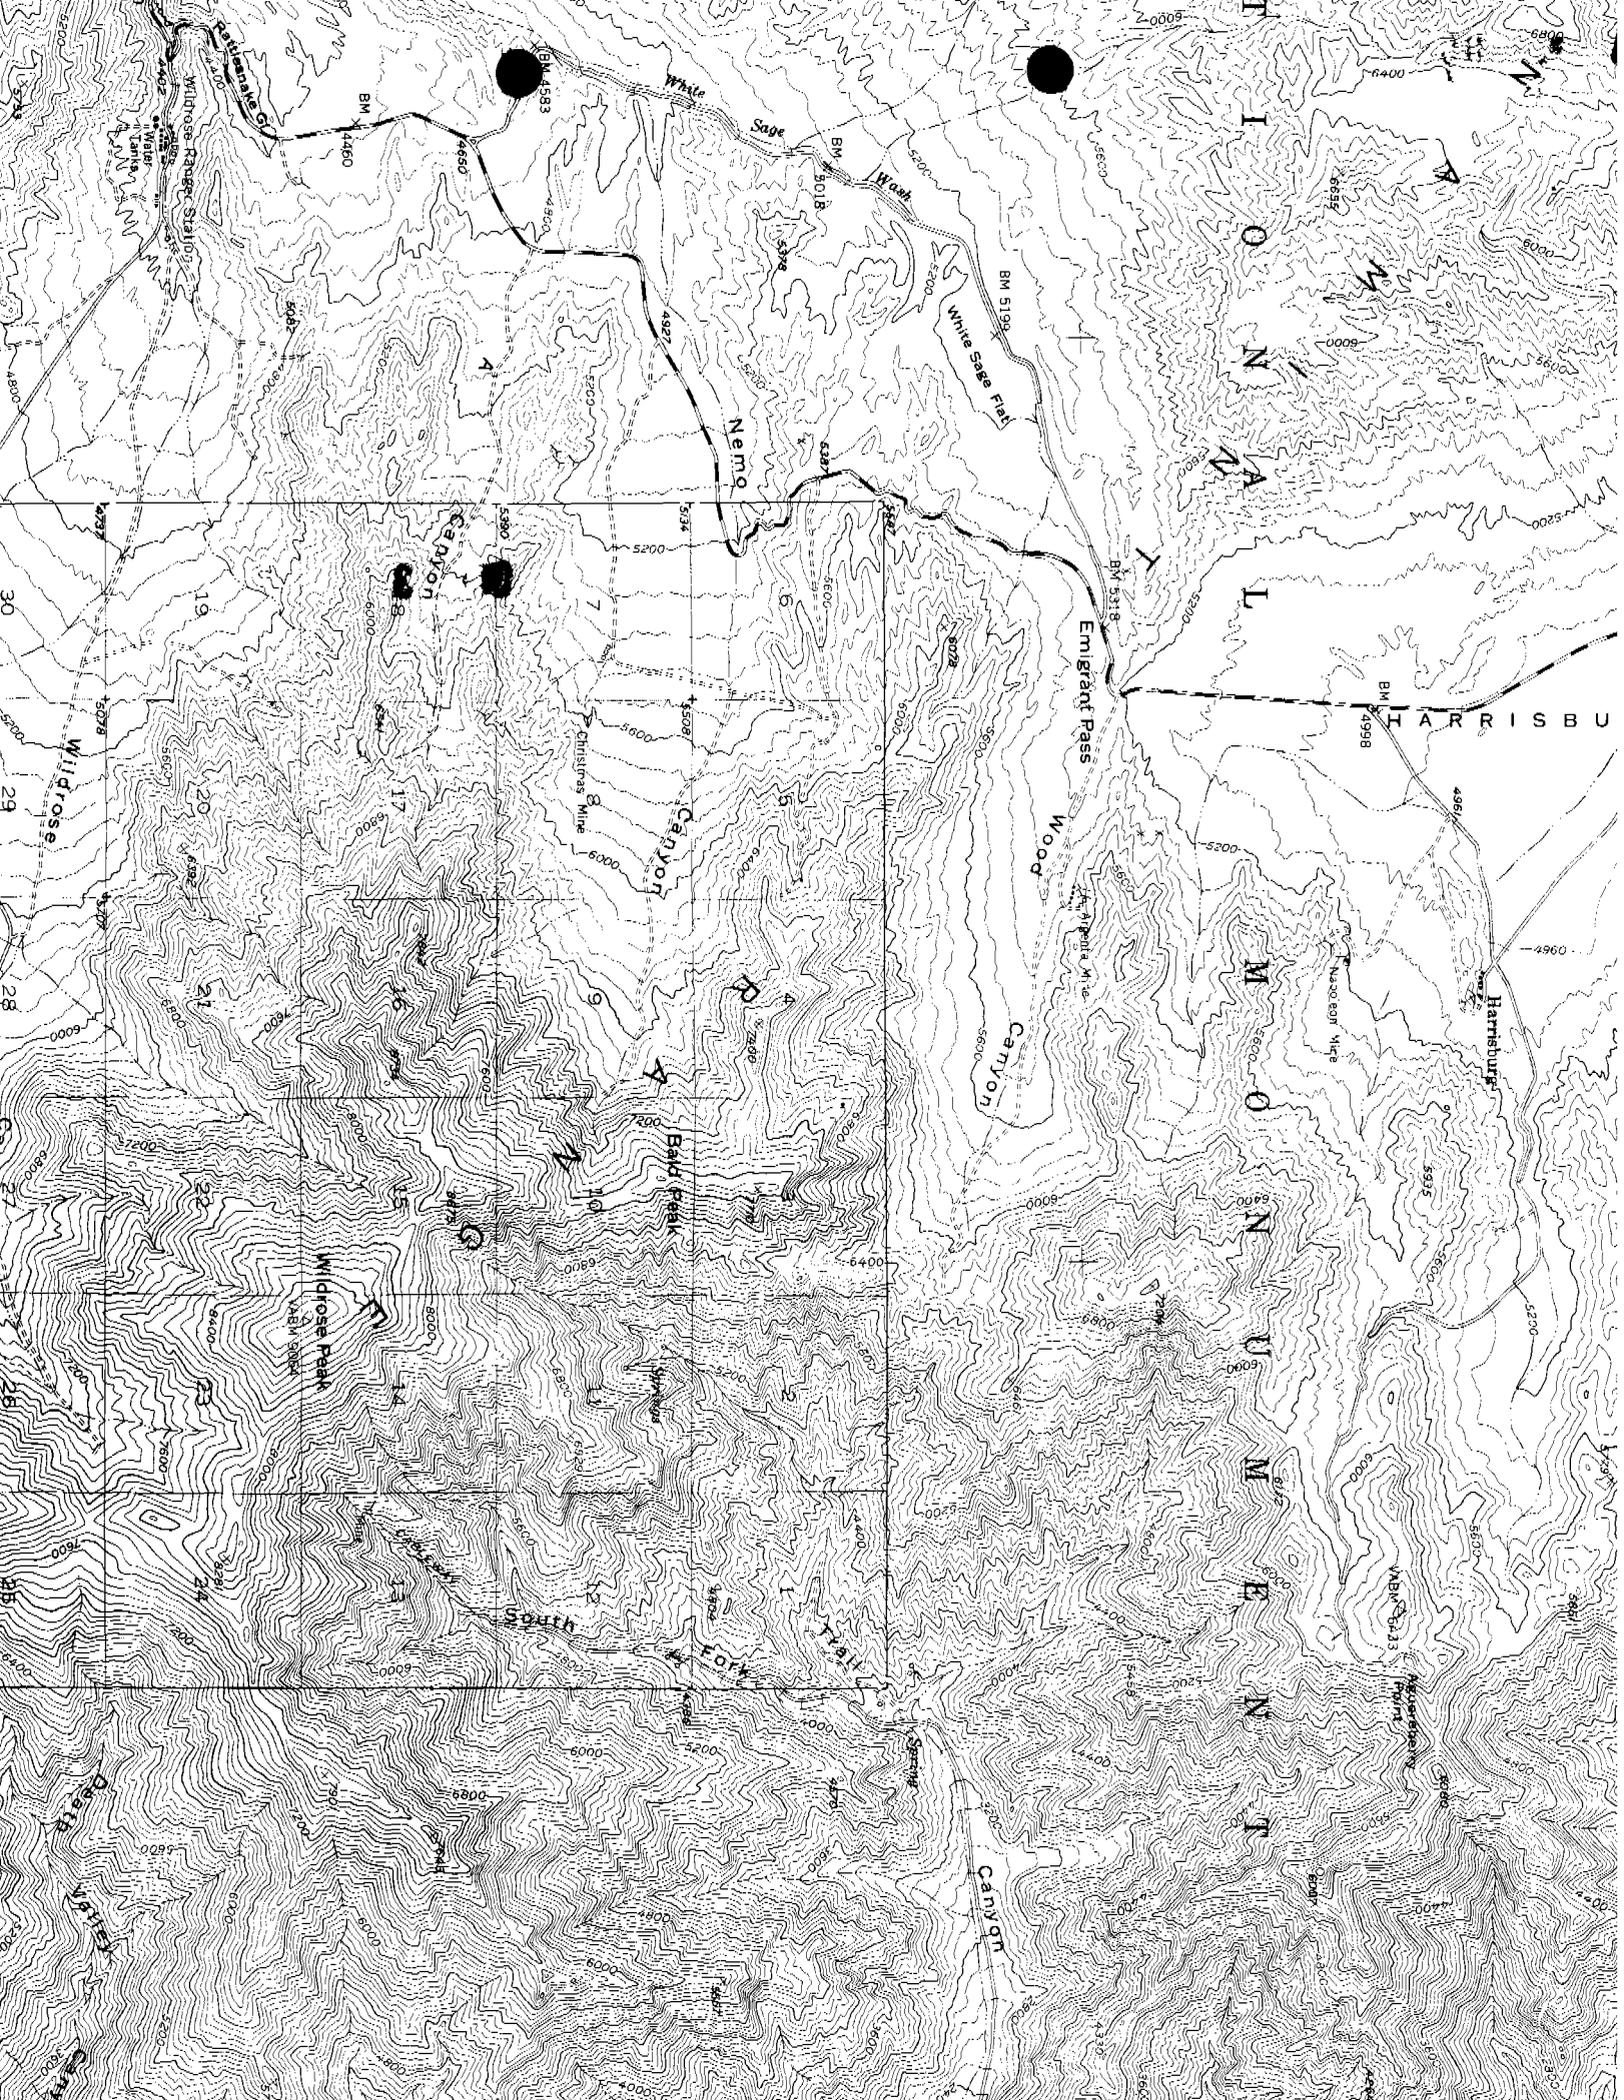

Enclosed please find 7 copies of the Mid-Term Review deficiency responses listed below.

February 12, 1993,
 March 26, 1993,
 June 25, 1993,
 September 24, 1993,
 December 10, 1993,
 May 2, 1994.

In a letter from the Division dated August 2, 1994 these deficiency responses were approved for insertion to Wellington's MRP. *It is very important that each deficiency submittal be inserted completely to the MRP in the order in which they were submitted.* In other words, begin with the February 12th submittal, insert it using the instructions included with that submittal, then go on and do the same with the March 26th submittal -- and so on.

If you so desire, call and have people from *MT. NEBO SCIENTIFIC* make the insertions for the Division MRP's. We are very familiar with each submittal and could do the job in your office accurately and relatively quick. (We will also be doing this for the *GENWAL COAL COMPANY* copy).

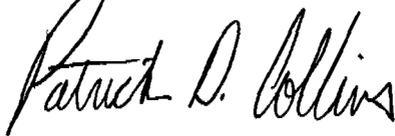

Additionally, one copy of a completely revised MRP Chapter 1 (dated May 31, 1994) has also been submitted with these documents. This includes original signatures from company representatives, updated identification of interests, compliance information,

the revised reclamation agreement, and insurance information for the Wellington Preparation Plant. Within the text of Chapter 1, there are a few places where the Division's Director should sign. Please have Mr. James Carter sign the "marked" pages, then give me a call and we will have another seven (7) copies made for the Division, plus several more copies for other existing in-house MRP's.

Please call me soon. We appreciate your continued support.

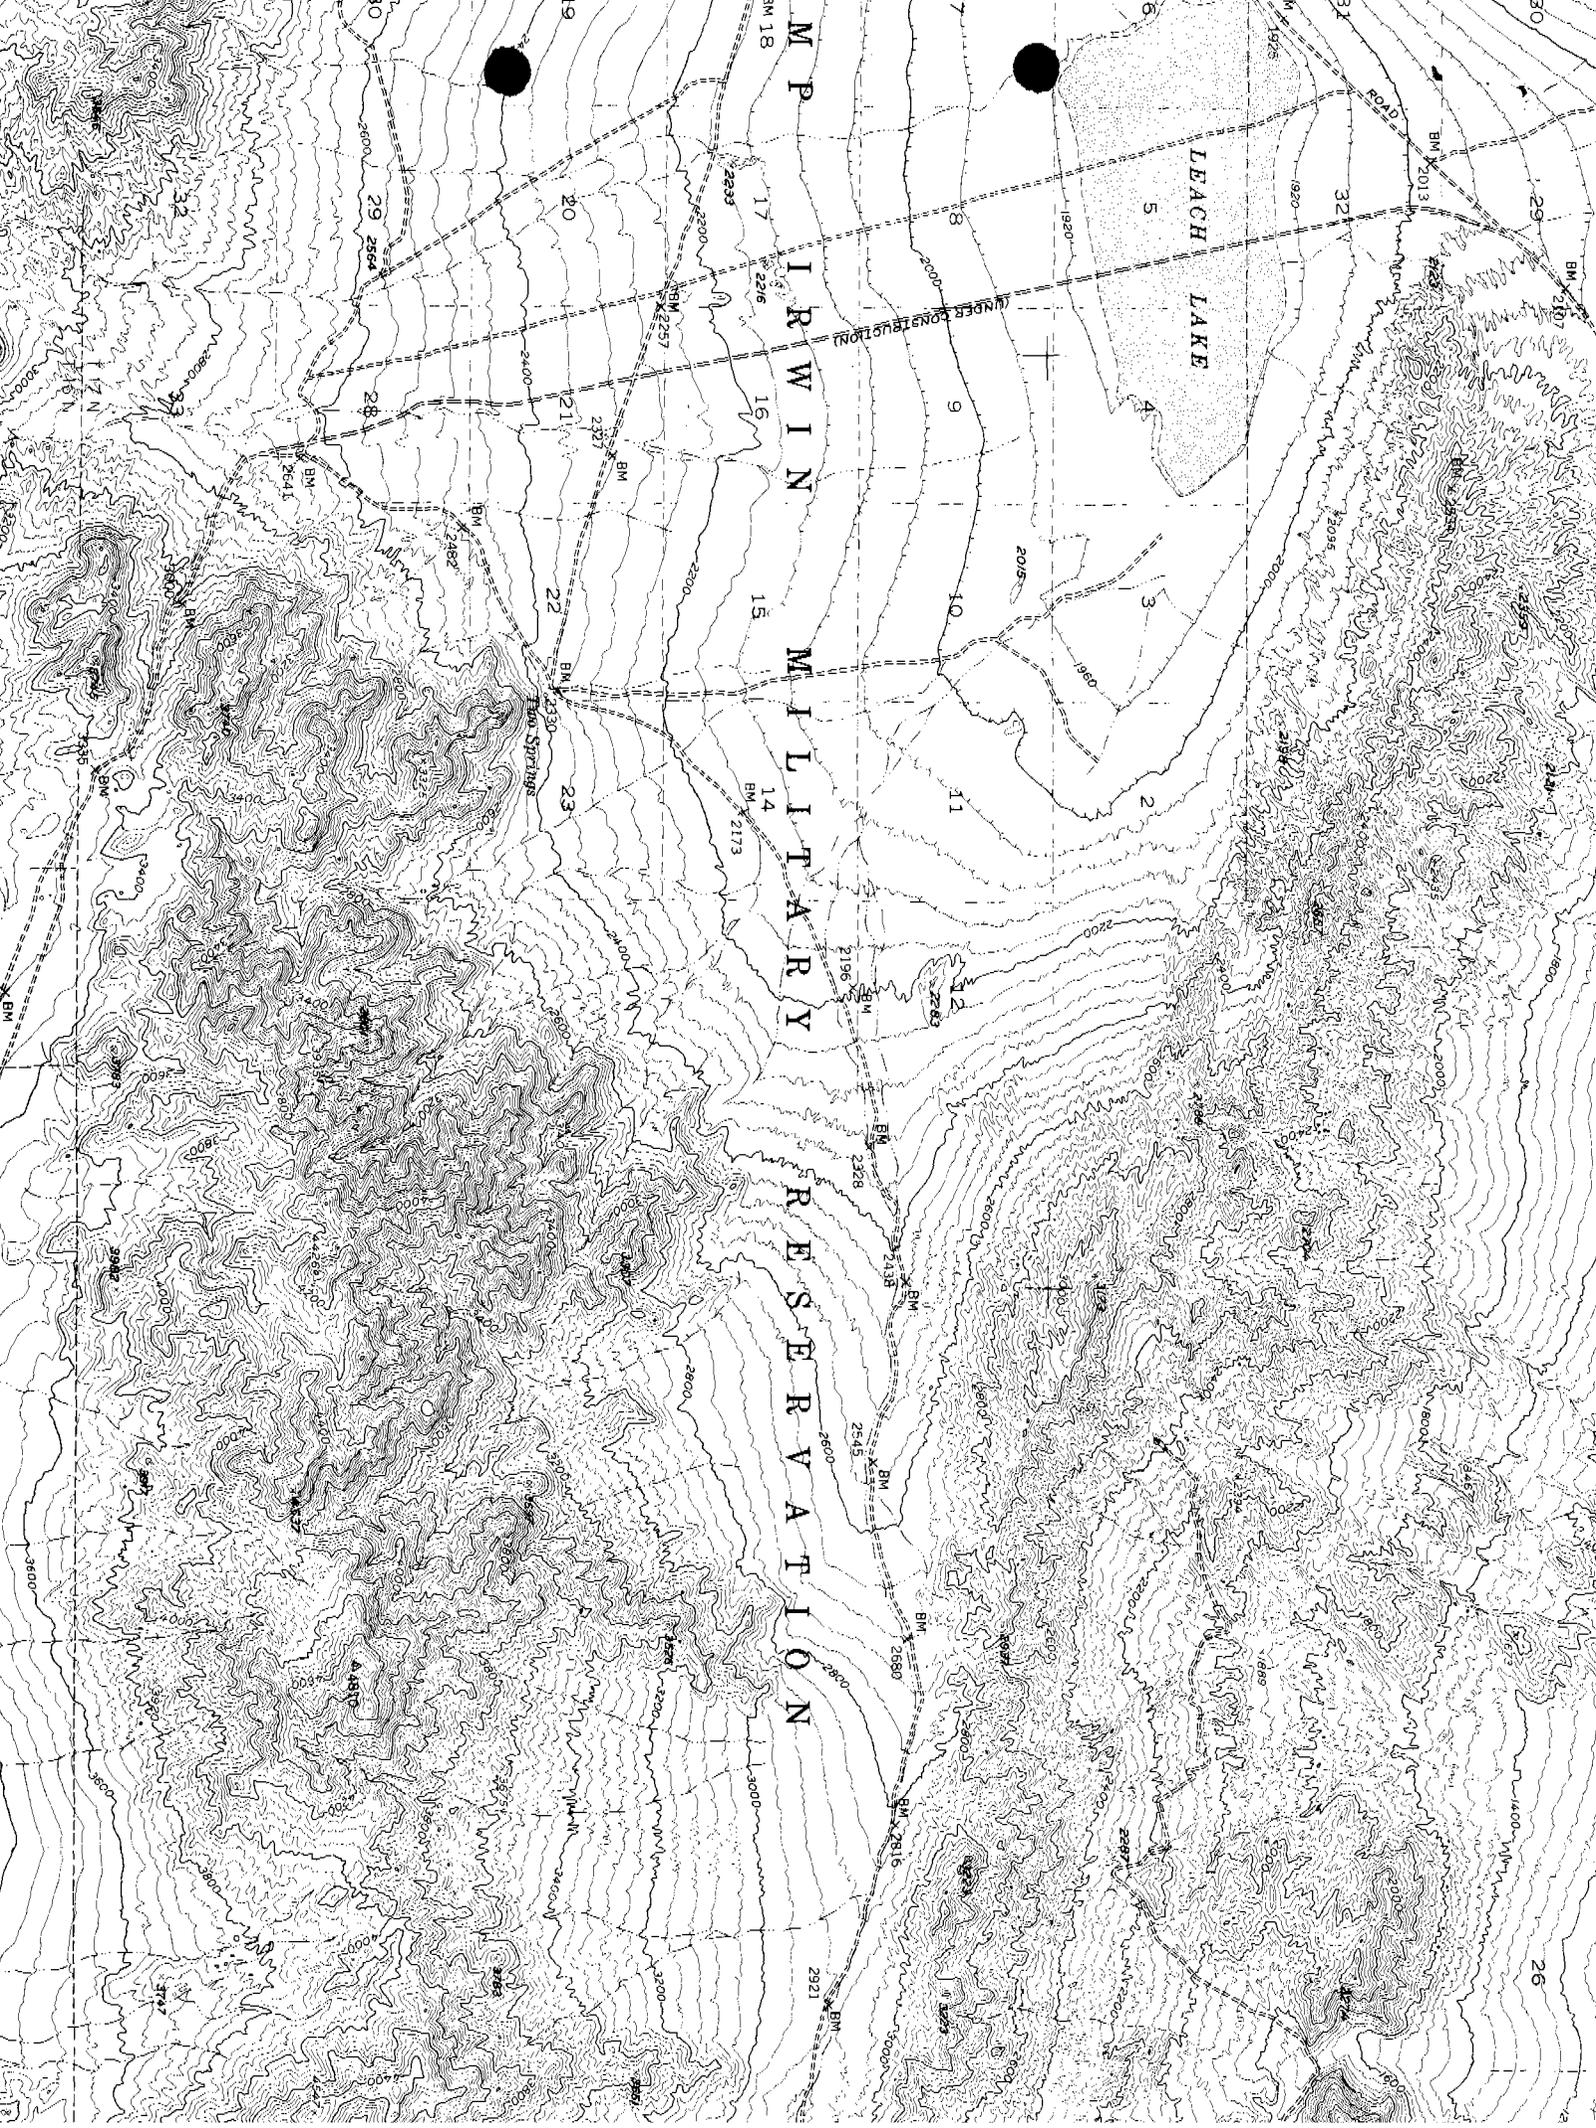

Sincerely,

A handwritten signature in cursive script that reads "Patrick D. Collins". The signature is written in black ink and is positioned below the word "Sincerely,".

Patrick D. Collins, Ph.D.
