Dear Bob:

I understand that you are continueing to work through the process of applications for your project in Wellington. As from the beginning of this project, the County Commission has whole heartedly supported your efforts, and we are all anxious that the process goes as fast and smooth as possible.

We are aware that the reclamation process you are planning does come close in proximity to a county road. Carbon County has no objections to this and would offer any help we can in the process, both in areas near our road and within your project.

Please call with any questions or concerns, or any ideas we may be able to help you with.

Sincerely,

A handwritten signature in cursive script, appearing to read "Neil Breinholt".
