Re: Determination of Administrative Completeness - Permit Renewal, Wellington Preparation Plant, Nevada Electric Investment Company, ACT/007/012-94C, Folder #3, Carbon County, Utah

Dear Mr. Marshall:

The Division has determined that the permit renewal application for the Wellington Preparation Plant is "complete and accurate", as defined by the policy directive for permit renewal, effective January 12, 1994. Additionally, the executed Reclamation Agreement and a rider to increase the surety bond have been received and approved by the Division, as required by the August 17, 1994 Division letter.

Publication of the public notice as required by R645-300-121 should proceed for four consecutive weeks. If no adverse comments are received at the end of the 30-day comment period, findings for the renewal will be made and the permit renewed.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Pamela Grubaugh-Littig'.

Pamela Grubaugh-Littig  
Permit Supervisor
