RE: Permit Transfer Status, Wellington Preparation Facility, NEICO, ACT/007/012, Folder #2, Carbon County, Utah

I spoke with Daniel Longworth, CoalPlex, on February 20, 1996, about the permit transfer. If NEICO enters into an agreement with CoalPlex for the Wellington Preparation Facility, it would be necessary for NEICO to notify the Division of that agreement. Currently, the Division is aware of an acquisition agreement for this facility between COVOL and NEICO. Upon notification of this agreement, a new permit transfer application would need to be submitted.

Mr. Longworth also asked me about reclamation work on the site. I told him that until the permit is transferred, reclamation work can be done by the permittee, NEICO, following the approved reclamation plan. He also asked if he could submit an application for an alternative postmining land use. I told him that until the permit is transferred, NEICO is the permittee and can submit permit amendments.
