Re: April 30, 1996 Modification to Operation and Reclamation Plan, Nevada Electric Investment Company, Wellington Prep Plant, ACT/007/012, Folder #3, Carbon County, Utah

Dear Mr. Collins:

The Division has completed the review of your submittal dated April 30, 1996, which was intended to satisfy deficiencies in the Wellington Prep Plant Operation and Reclamation Plan (ORP). While your plan still contains some remaining deficiencies, it is felt that this information is acceptable and is hereby approved for insertion to the ORP. Enclosed you will find a complete copy which has been stamped for incorporation. This material was supposed to have been sent to you on July 25, 1996, but was inadvertently left out of the correspondence that was sent on that date.

Please be aware of the remaining deficiencies in your plan. The July 25th, Technical Analysis discusses them and you are required to respond by August 22, 1996. We apologize for the confusion in getting this submittal back to you and hope it has not caused too many problems. Please call if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor

Re: Permit Deficiency Response, Nevada Electric Investment Company, Wellington Preparation Plant, ACT/007/012, Folder #3, Carbon County, Utah

Dear Mr. Collins:

The Division has completed a Technical Analysis (TA) for the Wellington Preparation Plant Permit, the Deficiency Response submitted on April 30 1996, and Amendment 96-B, Results from Soil Sample Area E. The updated TA is enclosed for your information and files. The purpose of this TA is for the Division to make the findings under R645-300-133.100. As you will note, there are a few areas that require further clarification. Some of these areas will be addressed through requirements under Division Order 96-A and others will be addressed under requirements of N95-39-2-2. The remaining deficiencies will need to be adequately addressed by August 22, 1996. Please review the TA carefully to make sure you understand the remaining deficiencies.

The Deficiency Response submitted on April 30, 1996 and the Results from Soil Sample Area E, Amendment 96-A, are hereby incorporated into the plan. Stamped copies of these documents are returned for inclusion into your copy of the plan. Please call if you have any questions.

Sincerely,

Daron R. Haddock
Permit Supervisor
