Re: Nevada Electric Investment Company, Wellington Preperation Plant, ACT/007/012, Folder #3, Carbon County, Utah

Dear Mr. Collins:

As you are aware, the Division has been reviewing a number of your submittals which were intended to correct deficiencies in the Operation and Reclamation Plan (ORP) for the Wellington Preperation Plant. We have determined that it is time to approve the submittals and update the plan accordingly. Therefore, the plans you have submitted to date are hereby approved and officially become part of the Wellington ORP. We look forward to getting your plans updated and require seven (7) copies of the approved information for distribution. It is my understanding that you have worked closely with Sharon Falvey from our office and have a record of the replacement pages and maps. Please provide these copies by no later than March 12, 1996.

Even though we are approving your plans, there still remain some deficiencies in the ORP. The enclosed Technical Analysis (TA) discusses the deficiencies and describes what must be done to correct them. Please review the TA carefully. The deficiencies have been summarized at the beginning but are more fully discussed in later pages. A response to the deficiencies must be provided by no later than April 1, 1996.

We look forward to completing the permit correction process for the Wellington Preperation Plant. If you have questions, please don't hesitate to call me or Sharon Falvey.

Sincerely,

Daron R. Haddock  
Permit Supervisor
