We appreciate the cooperation and assistance that you and other personnel at DOGM have afforded to EARTHCO during this transition period as we have attempted to become familiar with the site, the MRP and the present relevant issues. Please feel free to contact me personally at the EARTHCO office, if you have any questions or concerns about this correspondence or any activity in the future. WCP is a very important project to EARTHCO and it demands and is receiving a tremendous amount of attention from all of us at the EARTHCO corporate office.

Sincerely,

EARTHCO
