Ground Control Plan

Dear Mr. Gabbitas:

The enclosed ground control plan, dated September 15, 1997, consisting of a cover letter dated September 19, 1997, seven (7) pages of text, and two (2) area map pages, has been reviewed by MSHA personnel and will be made a part of the mine file in accordance with 30 CFR 77.1000-1. The filing of this plan does not supersede the applicability of any of the requirements of 30 CFR, Parts 1 to 199.

This submittal supersedes all previous ground control plans in the mine file.

Should a subsequent inspection by an authorized representative of the Secretary determine that the plan does not ensure safe working conditions for all persons, appropriate action will be taken.

Sincerely,

/s/ Archie D. Vigil

for John A. Kuzar
District Manager
