Re: Deficiencies in Application to Reduce Permit Area, Nevada Electric Investment Company, Wellington Preparation Plant, ACT/007/012-97C, Folder #3, Carbon County, Utah

Dear Mr. Collins:

The Division has completed a review of the permit change application you submitted on May 19, 1997, which was intended to reduce the permit area for the Wellington Prep Plant. Your application cannot be approved as submitted, since there are some regulatory deficiencies. A technical analysis has been completed which provides the results of the review and outlines the deficiencies. A copy is enclosed for your information and attention. In order to keep this project in the review loop, you will need to provide a response which satisfies the deficiencies by no later than June 30, 1997.

Thank you for your help through the permitting process. Please call if you have any questions regarding the requirements.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock". The signature is fluid and cursive.

Daron R. Haddock
Permit Supervisor
