PERMIT NUMBER: ACT/007/004

DATE OF INSPECTION: August 22, 1997

(Comments are Numbered to Correspond with Topics Listed Above)

1. Permits, Change, Transfer, Renewal, Sale

On August 8, 1997, the Division approved a change in the resident agent to Steve Traweek.

8. Noncoal Waste

The operator has not yet disposed of rubble from the building foundations. The plan indicates the concrete will be placed in the hopper or in the basement of the office building and covered at least two feet deep. The operator intends to change the postmining land use to allow retention of the hopper, but there are other places where it could be buried.

18. Support Facilities/Utility Installations

The operator has been reclaiming the slurry pipeline but will probably stop because the supports could be used for a conveyor system to bring borrow soil across the river. Much of the pipeline has been cut up, and this could all be removed. The operator needs to be sure things do not get out of the disturbed area.
