Dear Client:

The samples were received for analysis at Inter-Mountain Laboratories (IML), Farmington, New Mexico. Enclosed are the results of these analyses.

Analytical results were obtained by approved methods. Sample analyses were obtained within the method specified holding time. Practical Quantitation limits (PQL) were determined for each parameter for various matrices, and preparation dilutions. Quantitative results are reported on an "as received " basis for all matrices unless otherwise specified.

If you have any question, please call me at 1 (505) 326-4737.
