Re: Approval of Response to Division Order 98A, Nevada Electric Investment Company,
Wellington Prep Plant, ACT/007/012-DO98A, Folder #3, Carbon County, Utah

Dear Mr. Traweek:

The Division has completed a review of your amendment submitted on July 22, 1998 in response to Division Order 98A. We have determined that the information that was submitted is adequate to satisfy the Division Order and it is hereby approved for incorporation to your (MRP) Mining and Reclamation Plan. This satisfies the Division Order, however there is one slight problem in the incorporation process that will still need to be corrected. The copies of the amendment are in redline/strikeout which are not appropriate for insertion to the MRP. You will need to submit three clean copies of the materials that can then be incorporated. Also the map will need to have the appropriate certification by a registered professional engineer.

Please submit the required copies by no later than September 18, 1998. If you have any questions regarding the requirements, please contact Daron Haddock at 801-538-5325, or Paul Baker at 801-538-5261. Thank you for your help in completing the permitting process.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor
