Re: Clean Copies to be Inserted into Mine Plan, Midterm Review Requirements, Nevada Electric Investment Company, Wellington Preparation Plant, ACT/007/012-MT97(97I), Folder #3, Carbon County, Utah

Dear Mr. Traweek:

A number of submittals were made to address the midterm review issues and amend your plan. Clean copies of the approved amendments were needed in order to update your Mining and Reclamation Plan. The Division has received the required copies and is now returning one to you which has been stamped to indicate that it is your official approved version of the plan. Please make sure it gets incorporated into your MRP.

Thank you for your help in completing this permitting action. Please call if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "Daron R. Haddock".

Daron R. Haddock
Permit Supervisor
